(incl. all public transportation, also from the airport - discounts in museums, restaurants - book online BEFORE you arrive in Berlin and print it out) [BOOK HERE](#)

---

During five days of the Learning activity in Berlin, through lectures and interactive workshops, project partners will be present in order to:

- Learn and share experiences about six project topics from the perspective of Innovation.
- Structure the HI4CSR Guide

Following upon the first LA in Zagreb, all of the project partners will contribute by sharing the best practice in innovation for each subject topic. The topics will discuss successful innovation practices in the field, formulate possible paths for further innovation and improvement, find creative solutions applicable, and exchange knowledge. This will bring about enrichment of the subject field at the national and EU level.

The meetings will be organized via round tables and working groups which will also work on the key points for structuring the Hi4CSR guide.
